Beware of Ointments For Catarrh That Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. The delivery wagon of the Great Atlantic Tea and Spice Company was overturned in the river at the wharf this morning and some \$50 or \$75 worth of goods damaged. The driver, Mr. Sherman Bowe, was attending to some business on the wharfbank, and left his horse standing near the ferry float. The animal, evidently wanting a drink, walked into the river, and unluckily the wagon, loaded with tea, coffee, etc., overturned in the water. Mr. Bowe was on his way to Manchester when the mishap occurred.

New York Woman Loses Case Against Former Maysville Man

A special from New York, under date of Friday last, says:

"The charges made by Mrs. Ida M. Von Claussen against her former husband, Dr. William F. Honan, were dismissed by Magistrate Harris in the Yorkville Court today for lack of jurisdiction. Mrs. Von Claussen was her own lawyer, and became very indignant when her case was thrown out. Mrs. Von Claussen is trying to have Dr. Honan contribute toward the support of the child, Natalie. Dr. Honan's counsel today submitted a copy of the divorce decree, which states that Mrs. Von Claussen was to keep the child without aid from the defendant.

"Mrs. Von Claussen alleges that her divorce was not legal, and says she has taken steps to have it set aside."

Better Streets Is the Appealing Cry of Sixth Ward Residents

During the wet season, especially the winter months, Cottage and Kentucky streets in the Sixth Ward, at times, are impassable to carts, wagons and other vehicles, owing to standing pools of water and muddy condition of the thoroughfares.

Aside from the many pretty cottage residences, there are industries of considerable proportions in the vicinity that entitle them to consideration by the City Council in the matter of macadamized roads, thus affording a means of ingress and egress in receiving coal or other necessities for the conduct of their business places and homes.

In many parts the neighborhood is practically void of either gas or electric lights, and after nightfall the denizens are compelled to stumble around in the darkness in going to and from their homes.

The matter of bettering conditions is respectfully referred to the consideration of Council.

Bald Heads

Not Wanted

Baldness is Too Generally
Considered a Sign of
Advanced Age

A bald-head person does not have an equal chance with one blessed with a healthy head of hair, because baldness is too generally accepted as an indication of age. Many large corporations have established an age limit, and refuse to take men over thirty-five years of age as new employees.

Almost 65 per cent. of bald-headed people may regain a good head of healthy hair if they will follow my advice and accept my offer. I have a remedy that I positively guarantee to grow hair on any head, unless the roots of the hair are entirely dead, their follicles closed, and the scalp has become glazed and shiny. I want people to try this remedy at my risk, with the distinct understanding that unless it does exactly what I claim it will, and give satisfaction in every respect, I shall make no charge for the remedy used during the trial.

I know exactly what I am talking about, and with this offer back of my statement no one should scoff, doubt my word or hesitate to put my remedy to an actual test.

I want every one suffering from any scalp or hair trouble, dandruff, falling hair or baldness, to try my Rexall "93" Hair Tonic. I want them to use it regularly—say until three bottles have been used—and if it does not eradicate dandruff, cleanse and refresh the scalp, tighten the hair in its roots, and grow new hair, I will return every cent paid me for the remedy for the mere asking. There is no formality expected and I exact no obligation from the user whatever.

I am established right here where you live, and make this offer with a full understanding that my business success entirely depends upon the sort of treatment I accord my customers, and I would not dare make the above offer except that I am certain that I can substantiate it in every particular. Rexall "93" Hair Tonic comes in two sizes, 50 cents and \$1. Remember you can obtain Rexall Remedies in Maysville only at my store—The Rexall Store. Thos. J. Chenoweth.

According to the latest estimates obtainable there are 674,259 railroad employees in the United States in line for pensions. This is about 40% of the total number of railroad employees in this country.

During 1909 the railroads of the country ordered 3,283 locomotives and 185,445 freight and 3,980 passenger coaches. The number of locomotives ordered was far short of the number ordered during the years 1905 and 1906.

TRUTH CROPS OUT

WHY PILE SUFFERERS OFTEN FAIL TO GET RELIEF.

Science is getting to the bottom of everything, including the cause and cure of piles. The brightest doctors now admit that piles are caused internally and can be cured only by internal treatment. WASHINGTON "SASSIETY"

Some Amusing Incidents Concerning the Antics of Low Necks, False Hair, Etc.

"Over the teacups," Washington society laughed heartily recently about two White House incidents at the Army and Navy reception which are going the rounds of cheerful goossips. The Lenten season is a dull one—no dinner parties, no dances, no receptions—so the two really noteworthy anecdotes filled a gap in the season of amusement.

The dramatic personae of the first story includes a celebrated statesman rather than in years, who wears glasses. While trying to adjust them to his aquiline nose they slipped from his fingers—not to the floor, but down the low-cut gown of a young navy matron who was standing in front of him.

The statesman was in despair, and finally appealed to the lady's husband to recover his property. With the usual thoughtlessness of married men, Mr. Husband reached down his wife's back and fished out the glasses before all the guests.

The other laughable incident came when a careless dancer caught her hand in the imposing coiffure of a stately white-haired Washington matron, displacing several of the puffs and curls. Much chagrined, she fixed it back again, but, alas! at least \$30 worth of the puffs had fallen to the ground.

An absent minded Admiral of National renown picked up the snow-white puffs, mistaking them for his pocket handkerchief, put them in his pocket and stalked majestically off to his carriage.

WHEN HER BACK ACHES.

A Woman Rinds All Her Energy and Ambition Slipping Away.

Maysville women know how the aches and pains that come when the kidneys fail, to make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all of these disorders. Here's proof of it in a Maysville woman's words:

Mrs. John Burns of Maysville, Ky., says: "I value Doan's Kidney Pills just as highly today as when I gave a statement for publication in their favor some years ago. I was subject to attacks of kidney trouble and at times the pain in my back was so acute that I was confined to my bed for days. The prompt relief I received from Doan's Kidney Pills, procured at J. J. Wood & Son's Drugstore, was very gratifying, and during the years which have since elapsed, I have had no serious return of kidney trouble. On some occasions, I have felt a slight backache, but a few doses of this valuable remedy have never failed to ward off any bad attack."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Last week Cincinnati revealed in "Miss Innocence," with Anna Held as the beautiful twinkling star, which was a most pleasing and charming production, elite, but rather suggestive and risqué. This week Cincinnati will enjoy "Dora Thorne" and "Lena Rivers." Uncle Tom's Cabin and East Lynne seem to have disappeared from the bill boards.

A MATTER OF FACT.

A city is just what its citizens make it, no better, no worse. If it is prosperous and growing it is proof positive that the business and professional people are progressive, energetic and alert to the welfare and interests of the place. If it is retrogressive and a "has been," it will invariably be found that the people are largely responsible for its condition.

We believe there never was a riper time than now to make Maysville a better and a larger city, and it only requires the united efforts of the people to make it the best city on the Ohio river between Pittsburgh and Cincinnati.

The Industrial Edition, soon to be published from this office, has for its primary motive this object, for it is in no sense an advertising scheme, or money making proposition, and we promise to show with it, to the outside world, the many natural and acquired advantages of Maysville in a manner never before attempted. It will be the most comprehensive and interesting paper ever published in this part of Kentucky. Over 95% of the people so far seen have joined hands with us in endeavoring to boom Maysville. How do you stand on the proposition? Are you with us, or against us? With your earnest co-operation we may accomplish wonders.

THERE are many causes which are necessary and grimy; causes which are necessary and tiresome; but this, surely, this National question of the playtime of our children, is a cause both necessary and delightful.—Mrs. Humphrey Ward.

THE Democrats gloated over the fact that the Sixth District of Missouri, which is always Democratic, was carried by a Democrat in the recent special election, but they do not add that their candidate got some 2,000 less votes than the usual Democratic vote of the District.

EVEN Uncle Sam is developing the kicking habit too. The President complains that the Government is paying too much to run its business. We are forced to admit that BALLINGER is getting more pay than he should. To tell the truth, BALLINGER is quite an expensive load for Uncle Sam to carry.

It is conservatively estimated that the 4th of March, 1910, will see the country fully \$10,000,000,000 richer than on the 4th of March, 1909. Farm values have advanced most substantially, as have city values and the worth of all securities. Every one in the country is or can be at work, and the volume and value of production and consumption is at the highest level in our history.

THE people get many wrong ideas from the newspapers. They are made to think by the Democratic newspapers that the Tariff makes the Trusts, and that because the Republican President and the majority of Republicans favor the Tariff, that must mean that they also favor Trusts and corporations. The truth is the Republican party is the only party that ever prosecuted a Trust or corporation, and every Republican believes in punishing every Trust and corporation that does wrong.—Hia-watha (Kas.) World.

THERE is no better way to teach a boy to be honorable and straight than to give him an opportunity to play normally with his fellows.—Governor Charles Hughes.

THE new Holland-American steamship Rotterdam has a palm garden, a terrace garden, a shoppers' arcade with flower shops, book stalls, hair-dressers, manicures, photographer, stenographer and candy store.

"An operation will cost you \$500." "And is it absolutely necessary?" "You can't live without it." "Say, Doc, the high cost of living can't all be blamed on the Tariff, can it?"—Philadelphia Ledger.

It is worth noting that, when gold has been coming to us from abroad, we have always enjoyed our greatest prosperity, and that when the tide has run in the other direction we have experienced our hardest times.—New York Press.

THE boom in business all along the line, home and foreign, is pretty discouraging to those individuals who were so sure the new Tariff would paralyze trade. It is not the first time well-devised Protection has knocked out its detractors.—Troy Times.

FARMS of the United States, with their buildings, implements and live stock, are today worth almost \$30,000,000,000. This is 44% more than in 1900. No such increase in agricultural values was ever before known in the history of the world in any country. The farm product of the year just closed was worth almost four times as much as the product of 1889.

"The way to run this country," said the egotist, "is to put thoroughly wise, capable, alert and honest men in control of all affairs."

"Yes," answered Miss Cayenne, "but what are we going to do? There's only one of you."

The Kentucky House passed Saturday the Waggoner County Unit Extension Bill by a vote of 63 to 28. The final fight to pass the bill is expected to begin in the Senate Tuesday.

Saturday Gifford Pinchott, late U. S. Forester, paralyzed the Ballinger Investigating Committee by charging Ballinger of deep official guilt and hypocrisy and that the Secretary of the Interior deceived the President and is unfaithful to the public. He declares that Ballinger upset all the Roosevelt conservation policies, and that he was guilty of scheming to loot the public domain by his catering to the land grafters. Of course, Ballinger is "indignant."
